DAFTAR ISI

ABSTRAK ........................................................................................................ i

KATA PENGANTAR ................................................................................... ii

DAFTAR ISI ............................................................................................... iii

DAFTAR GAMBAR ..................................................................................... vi

DAFTAR TABEL .......................................................................................... viii

DAFTAR LAMPIRAN ............................................................................... ix

BAB I PENDAHULUAN

1.1 Latar Belakang Masalah ................................................................. 1

1.2 Perumusan Masalah ........................................................................ 2

1.3 Batasan Masalah ............................................................................. 2

1.4 Tujuan ................................................................................................. 2

1.5 Kontribusi Bagi Perusahaan ....................................................... 2

1.6 Sistematika Penulisan ..................................................................... 3

BAB II GAMBARAN UMUM PERUSAHAAN

2.1 Sejarah Perusahaan .......................................................................... 5

2.2 Visi dan Misi Perusahaan ............................................................. 5

2.3 Lokasi Perusahaan .......................................................................... 6

2.4 Struktur Organisasi ......................................................................... 6

2.5 Deskripsi Pekerjaan ........................................................................ 7
BAB III LANDASAN TEORI

| 3.1 Konsep Dasar Sistem Informasi | .............................................. | 7 |
| 3.2 Analisis dan Perancangan Sistem | ...................................... | 7 |
| 3.3 Penggajian | .............................................. | 9 |
| 3.4 Document Flow | .............................................. | 11 |
| 3.5 System Flow | .............................................. | 14 |
| 3.6 Data Flow Diagram | .............................................. | 15 |
| 3.7 Entity Relationship Diagram | .............................................. | 18 |
| 3.8 SQL Server | .............................................. | 19 |
| 3.9 Database | .............................................. | 19 |
| 3.10 Visual Basic .NET | .............................................. | 21 |

BAB IV RANCANG BANGUN SISTEM

| 4.1 Analisis Sistem | .............................................. | 23 |
| 4.2 Pembahasan Masalah | .............................................. | 23 |
| 4.2.1 Document Flow | .............................................. | 24 |
| 4.2.2 Sistem Flow | .............................................. | 26 |
| 4.3 Desain Sistem | .............................................. | 27 |
| 4.3.1 Data Flow Diagram (DFD) | .............................................. | 27 |
| 4.3.2 Entitiy Relationship Diagram (ERD) | .............................................. | 32 |
| 4.3.3 Struktur Tabel | .............................................. | 33 |
| 4.3.4 Perancangan User Interface | .............................................. | 38 |
| 4.3.5 Penjelasan Penggunaan Program | .............................................. | 43 |
BAB V PENUTUP

5.1 Kesimpulan ................................................................. 50
5.2 Saran ................................................................. 50
