## BACKGROUND

The topic of the attributes of the Holy Sacraments in the Catholic Church for children aged 5–10 years is to introduce the concept of faith and spirituality to children from an early age. Children must begin to develop an understanding of God and spiritual life, so it is important to provide knowledge about the Holy Sacraments which are an important part of the Catholic faith. By understanding the attributes of the Holy Sacraments, children can understand how God is present in their lives and how they can experience His love and grace.

## GOALS

The purpose of this planning is to design an artbook using digital painting techniques to introduce the attributes of the holy sacraments in the Catholic Church in order to increase knowledge and increase interest in reading in children aged 5–10 years.
