

LIMITLESS CREATIVITY

GRAPHIC DESIGN FOR A HEALTHY ENVIRONMENT

1 Introduction

The author has successfully completed the research report titled "Designing Environmental Graphic Design as a Media for Information and Student Effectiveness at SMPN 1 Sukodono" on time and with quality. The author would like to express sincere gratitude to all parties who have provided guidance, direction, feedback, and assistance throughout the process. The author hopes that this book will be beneficial to readers in understanding the process of designing environmental graphic design.

2 Goals

The aim of this research is to design Environmental Graphic Design (EGD) as an effort to provide information and organize students.

3 Method Design

Analysis

Concept

Design

4 Design Project

The analysis of the Key Communication Message identified the keyword "attitude" for designing Environmental Graphic Design (EGD) as a tool for information and student effectiveness at SMPN 1 Sukodono. "Attitude" signifies the importance of treating others well. A positive attitude is highly valued at SMPN 1 Sukodono. Through EGD, the school aims to communicate messages that encourage students to have good attitudes towards others, respect differences, and create a positive environment.
